WAGGONER CATTLE COMPANY is built upon a foundation of performance-based genetics. Most of the cow families in our herd trace back generations to cattle raised on our farm in Carthage, Mississippi. Our sire selection, both natural and AI, consists of the most proven and predictable bulls that fit our goal of producing functional, carcass and multi-trait cattle. The heifers pictured above are just a sample of the next generation headed into production at Waggoner Cattle Company.

HERD SIRES AT WAGGONER CATTLE COMPANY INCLUDE:
